#### DEMOCRATIC TICKET IN KINGS

COUNTY CANDIDATES NAMED IN HAR MONIOUS CONVENTION.

tive Committee-Molloy's Turndown for County Clerk the Only Surprise-Republicans MayGive Cropsey a Place

Brooklyn was held last night in the Thomas Jefferson headquarters in Court Square, and the candidates were nominated without any contest. This is the ticket:

For District Attorney, John F. Clarke; for Sheriff, James S. Regan; for Register, Frederick Lundy, and for County Clerk,

The only surprise of the convention was the turning down of Henry P. Malloy for renomination for County Clerk. Until a few hours before the delegates had assembled it was confidently expected that Malloy would be renominated, but by a decisive majority the district leaders at their conference in the afternoon voted to turn him down and give the place to Drennan, the Fifth district leader. Malloy's friends accepted the situation gracefully and in the interests of harmony agreed to make no fight for him on the floor of the convention.

Drennan has held several official places and is the present secretary to the Board of Assessors. It is understood that Moljoy is to be consoled by indorsement for appointment as Surrogate in case Mr. Ketcham, who holds that office, and has been nominated for Supreme Court Justice, is elected.

Congressman John J. Fitzgerald, who is regarded as the most favorite son of the kings county Democracy, and who headed the list of delegates, read with much emphasis a declaration of party principles. It said in part:

He has been a rongly indorsed for the place by the depositors' committee of the Union Bank.

The Republican county convention will be held to-night at Prospect Hall in South Brooklyn. There was still much uncertainty yesterday as to the makeup of the tucket owing to the confusion over a possible dicker with the managers of the Independence League, and the question of tusion will not be settled until this afternoon.

nominated at to-night's convention. The law committees of both parties are to meet to-day before the conventions to consider the matter. Another difficulty arises from these two extracts from the

Public Officers Act, Section 20.-When a new office or an additional incumbent of an existing office shall be created, such office shall for the purpose of an appointment or election be vacant from the date of its creation, until it shall be filled by election or appointment

State Constitution, Article's, Section 1 When a vacancy shall occur otherwise than by expiration of the term in the office of Justice of the Supreme Court the same shall be filled for a full term at the next general election happening not less than three months after such vacancy occurs. • • • The Governor may fill such vacancy by appointment which shall continue until and including the last day of December after the election at which the vacancy

until and including the last day of December after the election at which the vacancy shall be filled.

Some of the lawyers interpret this as meaning that it is too late to elect this fall and that the Governor's appointee will hold over to January 1, 1913. Others advise that the conventions take the chances and nominate candidates for the additional Justiceship.

John J. Hopper, chairman of the county committee of the Independence League, issued yesterday the calls for the conventions of his party. The county convention will be held to-morrow night at Arlington Hall, 23 St. Mark's place. The Assembly conventions are called for to-night, and to-morrow night the Aldermanic conventions will take place. Should the Court of Appeals hand down its decision to-day on the Levy law and should that decision upset the law the Independence Leaguers will merely go through the formality of indorsing the Republican candidates, in accordance with the agreement which has been reached to fuse against Tammany. If the decision is held over until Friday there will be a general adjournment of the conventions until after that day.

### London-made Clothes imported by Saks

As inimitably English as a Piccadilly exquisite, with a window in his eye, and an attenuated London drawl. Made in London by one of London's foremost tailors exclusively for us.

Most English clothes are English in name only—ours are representative English styles. Made in England is not sufficient for us: we want to know by whom and for whom. Satisfaction on both of these points preceded our selection of a London tailor.

Can you in New York afford to be less fastidious than we were in London?

I Lounge suits, morning coats, doublebreasted ulsters, double-breasted and singlebreasted Raglans, belted overcoats, and the celebrated Acme golfing garments, for which latter we are exclusive agents in this country.
